

Turning meditation of the Mevlevi Dervishes

"Ya Hazreti Mevlana - Venerated Master,

whose beauty, greatness and radiance reaches beyond even that of sun, moon and stars.

While all other doors are closed, your door is always open,

so lovers on their path may find a way to you."

Calligraphy on the sikke of Rumi, Konya

The seminar offers a practical introduction to the Mevlevi turning tradition, based on a specific way of breathing - the zikhr. For those already practicing, it is an opportunity to deepen their experience.

On September 30th there will be a Mukabele (turning ritual) on Rumi's birthday.

We very much hope that our Sheikh Dino Alloni from the Nazaré Mevlevihane, Brazil, can travel to Germany and that he will be present during the seminar and the Mukabele.

Maria-Gabriele Wosien, Munich, leads the seminar. She learned the turning meditation in 1965, and has since then been in contact with members of the Mevlevi tradition, whose origin goes back to the Sufi mystic Jelaledin Rumi.
